Shahzad International is committed to offering the best products to its customers. We are a trustworthy, market-leading manufacturer of high-quality, custom-made poly bags, PP bags, Flyer Bags, Hangers, Fusings, and many more. To ensure that our polybags, hanger, and zip products meet the right quality, we have invested in machinery that gives us unprecedented control and accuracy. Additionally, our manufacturing procedures meet or surpass the highest industry standards. You may rely on our products that are made from high-quality raw materials. We've been assisting our valued customers with cost-saving product utilization. Even though we've gone a long way since our beginning, we continue to strive for the same objectives. And that is to offer our customers the best industrial packaging materials at a fair price. We offer secure transportation, moisture protection for your goods, and a cost-effective solution to keep your branding and trademark in front of buyers.

Our Mission

At Shahzad International, our mission is to bring our valued customers at top of our priority list. To achieve this target, we work really hard to produce high quality poly bags, buttons, fusings, and printing accessories. Our mission is to "be the trusted and preferred product supplier for customers." We promise to deliver the exceptional Poly Bags, Hangers, Zip, Printing Supplies, Velcro, Fusings, and Buttons you require as soon as possible. We take matters relating to quality control and complying with proper protocol exceptionally seriously. To ensure that any quality problems are resolved as quickly as feasible, Our Shahzad International was established. Thanks to strategically situated national and international warehousing capacities, you have the competitive advantage of on-time delivery. We will be the leading supplier of flexible packaging through operational excellence and unmatched customer service.

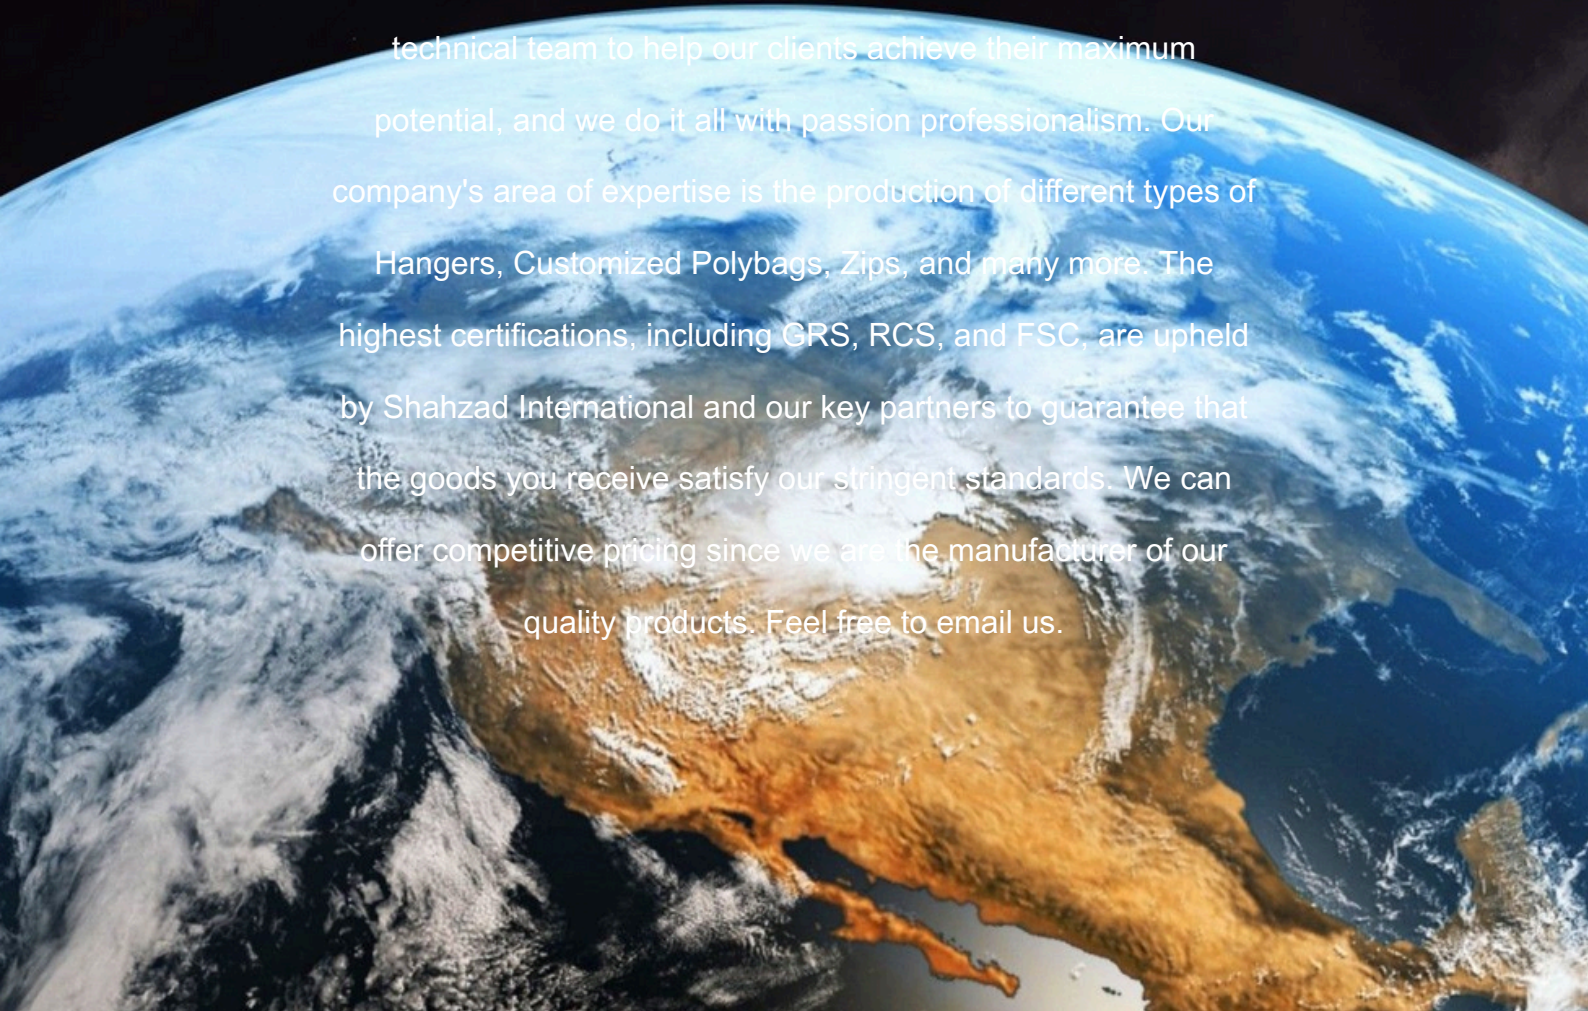

Our Vision

Shahzad International

Customers frequently thanks us for our outstanding services. We work hard to create enduring relationships with our customers based on quality, workmen ship and professionalism. Whatever the requirements are, you can rely on our prestigious customer services team to address it on highest priority. We offer our customers the best pre-made and customized packaging materials at competitive prices. We provide necessary tools to our technical team to help our clients achieve their maximum potential, and we do it all with passion professionalism. Our company's area of expertise is the production of different types of Hangers, Customized Polybags, Zips, and many more. The highest certifications, including GRS, RCS, and FSC, are upheld by Shahzad International and our key partners to guarantee that the goods you receive satisfy our stringent standards. We can offer competitive pricing since we are the manufacturer of our quality products. Feel free to email us.

Polybags

Manufacturing of custom made plastic bags are valuable resources for companies wishing to advertise, identify themselves, and safeguard their goods. Printing, embossing, labeling, and even building a unique bag to meet the requirements are all options for customization. You might be curious about what industries may require for specialized plastic bags. The majority of peoples who sell anything are the answer! If you have goods to transport, from retailers and e-commerce stores to grocery stores or shipping firms, you undoubtedly need something to carry them in. We produce and distribute custom poly bags. Our goods are delivered following your unique requirements and the highest quality standards. We are committed providing the custom-made poly bag you want, with 2–3 weeks lead time and no minimum order quantity.

PL Bags

To meet any requirement and application, we have designed and manufactured various categories and sizes of PL bags by utilizing multiple materials. We can provide everything you need, from a packaging solution for your manufacturing unit and retail space to a batch of specially designed polyethylene bags. We will provide packaging materials especially suited for your application if you let us know your needs. We can match your requirements with the ideal product for your needs and budget, whether you work in the retail or medical sectors. Uncertain about the bag you require for your application? No issue. Our experts can review each type and advise you on the most appropriate one.

BoPP Bags

Biaxially Oriented Polypropylene, or BoPP, is a particular type of polymer used in packaging. Due to its durability, it is one of the most widely used packing materials. A BoPP bag is a sack that is braided and laminated throughout the production process using organic ingredients. These bags are created using premium packing materials, which gives them a very long lifespan. These bags' numerous layers enable the delivery of bulky items. Because they are thin yet highly resilient, multiple layers doesn't present a problem. The design of these bags and promotion of corporate brands are often simple. Production of Our BoPP Woven Bags Follows Good Manufacturing Practices. The bags are laminated with a biaxially oriented polypropylene film to create a highly writable surface and eye-catching packaging. With 10-color rotogravure printing from Shahzad International, you can add photographic detail to your woven polypropylene bags.

Flyer Bags

Contact us and let us create a printed flyer bag specifically for you! Personalized flyer bags are the ideal complement to your in-store marketing plan. Flyer bags can be printed in six colors and come in custom-made sizes. Add customized logos and prints and change the size and bag style. Either you design it, or we do! You have so many alternatives. So get going at once! Choose your preferred size, the film's color, the style of Flyer bags with handles, and the print design, and we'll do the rest of the work! Thus, there is nothing else for you to be concerned about.

OUR PRODUCTS

Bio Plastic Range

Plastics made from natural ingredients are known as bioplastics. 99% of the plastics market is composed of materials derived from petrochemicals. However, as the globe explores more environmentally friendly substitutes for plastics made from petrochemicals, the manufacturing of bioplastics is rising. We manufacture an astonishing spectrum of high-performance bioplastics that fulfill our client's environmental and end-of-life performance needs, building on 20 years of development work. Our products are 100% biodegradable, compostable, and made from renewable natural resources. They are suitable for various plastic processing techniques, such as injection molding, sheet extrusion for thermoforming and vacuum forming, blown film, lamination, extrusion coating, and monofilaments. We can assist you if you need a product with high-temperature performance or low viscosity.

PVC Bags

Vinyl chloride gas is used to create polyvinyl chloride, also known as PVC or vinyl, a solid plastic. PVC can be exceedingly flexible or rigid and inflexible. Whether or not phthalates are introduced during production affects flexibility. PVC is employed in various goods due to its water resistance and durability, including flooring, wall decals, pipelines, medical equipment, and clothing. PVC bags offer a clear picture of the situation. These bags are perfect for advertising cosmetic or medicinal products. However, a PVC packaging bag can also be used to pack other goods or printed things properly. These PVC transparent bags can serve as company products and are appropriate for all occasions. PVC bags will make your brand visible to others, mainly potential clients. Order now for prompt delivery.

Suiting & Sheeting Bags

Anyone who wears a suit needs a suit bag in their luggage. You may travel between events or meetings with our selection of suit bags while maintaining your professional appearance. Our suit bags are explicitly created to protect the clothing. To prepare your suit, you can use them as storage covers at home. Shop the collection instantly to save your possibilities in vogue, just like you

Bio Degradable PVC Wire Bags

We frequently consider the performance of biodegradable bags from the criteria while testing packaging bags daily. Our plastic bags must be suitable for daily use before being used regularly. And our products have successfully passed the test, can fulfill all everyday needs, disintegrate, are environmentally friendly, and are a great alternative to conventional plastic bags. Environmentally friendly bags are those made of biodegradable plastic. Our biodegradation is a substance that, when composted, may be entirely broken down by microorganisms into carbon dioxide and water in 180 days.

Environment Friendly

The virgin material is new and has never been used. Recycled materials are items utilized in the past and are currently recycled to manufacture waste bags. More individuals desire to use recycled materials instead of virgin plastics as the social trend moves toward environmental consciousness. But we have so many options for you;

- 30% Recycle 70% Virgin
- 100% Recycle
- 50% Recycle 50% Virgin

OUR PRODUCTS

Hangers

There is a lot of competition because plastic injection molding has grown very common throughout the manufacturing sector. The variety of part sizes a company can produce is one of the most critical deciding elements when selecting a facility for plastic manufacture. The capacity of the machinery determines the maximum size of a part; the more influential the plastic injection molding machine, the bigger the features it can create. Mold size is another aspect of this limiting constraint, as few businesses make the substantial tooling investments necessary to produce huge plastic parts.

Our custom hanger business offers a variety of options as have more than 15 high tech injection molding machines which enable us provide vast verity of Hangers as per customer specifications and requirements. You can choose the material from plastic, wood, acrylic, metal, and fabric. In addition, we may print your design or logo on the hangers. We will send you our best price if you send us an email. We will try to keep the minimum quantity as low as possible. You can choose from wooden, plastic, metal, wire, acrylic, and other unique materials when ordering bespoke hangers from us. We can engrave your logo or print it any way you want it to appear on the hanger, including some printing logos. You can email us with details. You can choose from Pantone C or have any custom color created for you; provide us with the Pantone number. We may do that to make the hanger body, hook, and any desired color. We can make any shape to order, even one with your unique design. If you don't have a designer, we can still assist you. Any size that you require is possible. Any age is conceivable, including adult, child, male and female, and teenager sizes. Do not be concerned about that. Packaging Custom packaging is the last phase, including packaging boxes, bags, and carton boxes. Everybody may customize and add a logo.

OUR PRODUCTS

Zip (SBS)

Distributor & Traders of SBS

SBS has developed over 30 years into a zipper and button maker with strong technological R&D capabilities. Nylon zippers, plastic zippers, sliders & pullers, long chains, prong snap buttons, denim buttons, rivets, eyelets, precision molds, and metal & plastic pressing castings are the significant components of the zipper/button products and accessories that SBS delivers. We have evolved into manufacturers of buttons and zippers, various facilities, and goods. Since we have skilled staff to handle supply chain integration, As a distributor of 4.5" SBS, we can provide our customers with a wide range of the most recent zipper and button items.

ZIPS AVAILABLE IN

Brass Zip

Numerous items, including coats, jackets, trousers, purses, boots, and sleeping bags, feature brass metal zippers. These zippers have metal teeth that appear to be gold in hue.

Nylon Zip

The "teeth" of nylon coil zippers are coils of wire. Instead of having individual interlocking teeth like other types of zippers, they are coiled together. Our expertise and mastery of the art are demonstrated by the quick manufacture, sturdy design, and exceptional quality of our nylon zippers, which we have produced for over 15 years. Utilizing cutting-edge equipment and skilled craftsmanship, we always guarantee fresh concepts and ideas to satisfy your needs for wholesale zippers.

Vislon Zip

Plastic components that have been injection molded, like polyacetal resin, make up the Vislon zipper. In comparison to metal zippers of the same size, it weighs less. Due to its plastic teeth and polyester tape, Vislon zippers are appropriate for use with water.

OUR PRODUCTS

Printing Accessories

Our Printing Materials

Shahzad International Printing Accessories, including Tags, Stickers, Labels, Woven Labels, Bar Codes, and V cards, are specifically created to work best with every printer. The best way to build bespoke solutions for all your printing needs is to choose from our large array of accessories.

Tags

With a personalized tag, stand out from the crowd at the baggage carousel! This tag is robust and weatherproof to withstand the challenges of any roadie or adventure seeker. Customize it with your details to prevent escape bag mix-ups in the future!

Woven Labels

Polyester and cotton are the materials you'll most frequently find used for woven labels. A woven label has more outstanding quality and is more durable than a printed label. Place your order and receive your labels. Have a genuinely unique design problem? Only require a few labels, or perhaps thousands? We will guide you.

U Cards

Users can exchange business card information with V Cards using standard Internet tools like email clients and web browsers. Check out our collection of printable v cards for the greatest in one-of-a-kind, handcrafted items from our shops.

Stickers

Our customized laminated stickers are made to be waterproof and scratch-proof. This implies that they will maintain their beauty even if you glue them to smooth surfaces. Create a unique band sticker, sports sticker, or brand sticker with our sticker designs.

Labels

You can create a design for your company name and logo or a side project with a fully customizable label. Whatever your requirement or business, high-quality label printing choices are available to help you stand out and get noticed.

Bar Code

If your company already uses a few barcodes, the next step is to determine the best and most affordable manner to print them. Barcodes offer a professional touch, and neatness and inventive presentation draw in additional customers.

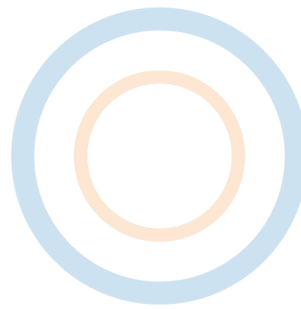

OUR PRODUCTS

Distributor & Traders

With the help of Velcro, you can add more storage space to practically any surface. Utilize these sticky back fastener strips to maximize the vertical space in your home or business. The fasteners may be secured to nearly any smooth, non-fabric surface indoors or outdoors. Ideal for the basement or garage.

The hook-and-loop alternative to Velcro tape consists of two material strips, one with numerous tiny hooks and one with several thinner loops, which the hooks can latch onto when the two components are pressed together. The average peel strength for standard industrial strength hook and loop is 1.2 lbs. per inch of width (PIW), and the average shear strength is 14 lbs. per square inch (PSI). Velcro is frequently associated with the material we use to secure our shoes before learning to tie shoelaces. Just keep in mind that hook and loop fasteners are helpful for more than just kids' shoes. Few materials have the strength of Velcro and the ease of fastening and unfastening.

Fusing

Distributor & Traders

A biodegradable nonwoven, double-sided adhesive surface is fusion paper. This work offers a low-cost and secure substitute for double-sided adhesive tapes. Heat sealers, pressure-sensitive systems, and laser printers can all be used with the two-sided backing fusion paper. Two layers of powerful glue are present on the waterproof double-sided backing. The product is absorbent, easy to apply and remove, and can be put directly into the press machine without lamination. It is also environmentally friendly. Additionally, it is antimicrobial and chemically resistant to a variety of substances. We uphold a constant degree of professionalism, quality, credibility, and service. We encourage clients, business associations, and friends from all parts of your community to get in touch with us and ask for cooperation for shared benefits.

Garnet

Professional woodworkers use 3M Garnet Sandpaper to sand a variety of raw and unfinished objects. Use on unfinished, natural wood. Sand along the grain and go from coarse to ultra-fine grits when sanding wood surfaces for the most outstanding results. Between each sanding step, no more than one grit may be skipped.

Embroidery

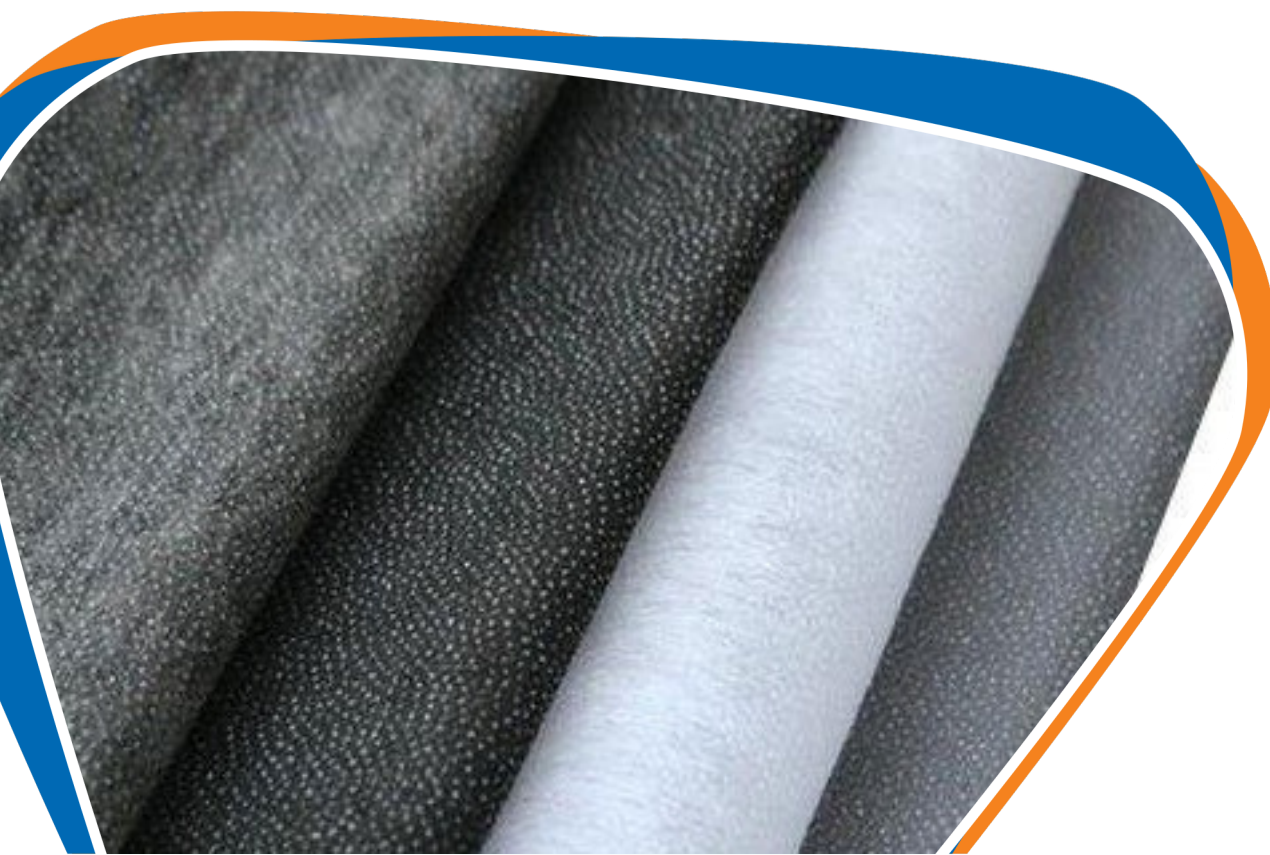

Our business views it as its responsibility to provide clients with cutting-edge Embroidery Fusing Paper, and our purpose is to increase customer job efficiency. For clients to receive top-notch after-sales support, we always uphold a modest and sensible attitude, prioritize customer interests above all else, judge speed according to that criteria, and prioritize quality over everything else. We have developed a long-lasting and stable working relationship with our clients by offering superior products at competitive prices.

Denim

We have a large selection of denim paper available. Here, paper is made from the denim that we use daily. The denim itself lends a paper a highly organic appearance. All shades are offered. The sheets, which measure 13 by 19 inches and have naturally deckled edges, are available in a package of 5 sheets for \$19.95.

OUR PRODUCTS

Buttons

Distributor & Traders

Millions of personalized pin-back buttons are produced at Shahzad International. The best buttons in the world are available here for every event, season, and theme. Additionally, discover countless button crafting project ideas. You've come to the correct place if you seek stylish, high-quality buttons. We now have hundreds of distinctive, lovely, individual plastic, polyester, nylon, and metalized plastic buttons in stock that can be both useful and interesting. The assortment includes buttons ideal for knitting, sewing, tailoring, soft furnishings, crafts, stitching, and jewelry creation. Given the selection size, we had to categorize the buttons into groups: multicolored, suit and shirt, coat, sewing, glitter, and diamante buttons. The buttons come in various sizes and shapes, ranging from a tiny 4mm to a massive 65mm, and they can have shank backs, 1, 2, or 4 holes.

Plastic Buttons

In our selection, plastic is arguably the most versatile material. Plastic buttons are available from us in any conceivable form, color, and processing choice. Sometimes, you might be unaware that the button is made of plastic. You might compare it to a wooden or mother-of-pearl button, for instance. The sturdy and long-lasting structure of plastic buttons is a significant benefit. Few buttons are as sturdy. As a result, you can find plastic buttons on jackets, coats, and outdoor apparel. The processing method is the only determining factor. You can find the corresponding plastic buttons here. Consequently, ordering them online is convenient.

Metal Button

Our metal buttons have a wide variety of faces that are as varied as their uses and applications. At the same time, some metal buttons are elegant and straightforward with modest decorations. Metal buttons work brilliantly on jackets, jeans, trousers, and especially when you want to jazz up the buttons on a cardigan. Our metal buttons are available in a wide range of sizes between 17mm and 34mm, as well as eye-catching metallic finishes. To acquire the ideal size, consult our Button Size Chart.

B Rabbits

Anywhere, round pinback buttons are instantly unique. There are two sizes available: slender Small (1.25 "/32mm) and obnoxious Large (2.25 "/57mm). It is built with UV and scratch-resistant adequately created. Customized printing is made particularly for you. A robust and practical point is present in this product. Use this particular pair of buttons to give your most recent creative creation a fun touch. There are four (4) buttons in this collection. Each button features a resin-topped design for long-lasting use. The diameter of each button is roughly 0.63" (16mm). Use our distinctive buttons to give your life a little playful flair. With our pin badges, you can show off your passionate personality while expressing your humor, opinions, and beliefs.
